Management's Report

The Company's management is responsible for the preparation of the interim financial statements and for the financial information included in this interim report. Management maintains a system of internal control in order to produce reliable financial statements and to provide reasonable assurance that assets are safeguarded.

The interim financial statements are prepared in accordance with Canadian generally accepted accounting principles and necessarily include amounts based on estimates and judgments of management. For their preparation, the Company uses the same accounting policies and methods used in the preparation of the Company's most recent annual financial statements. All disclosures required for annual financial statements have not been included in these financial statements. These interim financial statements should be read in conjunction with the company's most recent annual financial statements.

The audit committee meets, with and without management being present, to review the financial statements and discuss issues affecting this quarterly report. On the recommendation of the audit committee, the Company's interim financial statements are approved by the Board of Directors.

THREEGOLD RESOURCES INC.

Notes to financial statements

Three month periods ended March 31, 2009 and 2008

1. Incorporation, nature of operations and going concern

The Company has been incorporated under Part 1A of the Quebec companies Act, March 19, 2002 and has started its activities December 10, 2003. The Company is in the process of exploring mineral properties and has not yet determined whether these properties contain ore reserves that are economically recoverable.

The interim financial statements (unaudited) are prepared in accordance with Canadian generally accepted accounting principles and necessarily include amounts based on estimates and judgments of management. For their preparation we use the same accounting policies and methods used in the preparation of the company's most recent annual financial statements. All disclosures required for annual financial statements have not been included in these financial statements. These interim financial statements should be read in conjunction with the Company's most recent annual financial statements and particularly Note 1 – Changes in accounting policies and Note 2 – Significant accounting policies.

The financial information as at March 31, 2009 and 2008 is unaudited; however, in the opinion of management, all adjustments necessary to present fairly the results of these periods have been included. The adjustments made were of a normal recurring nature.

These financial statements do not reflect the adjustments to the carrying values of assets and liabilities, the reported amounts of revenues and expenses and the classification of balance sheet items was the going concern assumption inappropriate, and these adjustments could be material. Management did not take these adjustments into account as it believes in the validity of the going concern assumption.

The recoverability of amounts shown for mining properties and related deferred expenses is dependent upon the discovery of economically recoverable reserves, the ability of the Company to obtain necessary financing to complete the development, and future profitable production or proceeds from the disposition thereof. The Company will need to obtain periodically new funds to pursue its operations and despite its ability to obtain funds in the past, there is no guarantee for the future.

In order to honour its commitments towards its subscribers, the Company must obtain a non flow-through financing of \$324,913 before the end of the next year (see table below). In addition, the Company must honour its financial operating activities, for the next nine month periods, estimated by the management at \$453,000.

Exploration expenses incurred during the period	(107,260)
Cash reserved at end	(541,427)
	<hr/> 324,913 <hr/>

2. Changes in accounting policies:

On January 1, 2009, the Company adopted the following new accounting standards issued by the CICA:

Goodwill and intangible assets

The Company has adopted the Canadian Institute of Chartered Accountants (“CICA”) Handbook Section 3064, *Goodwill and Intangible Assets*, which replaces Section 3062, *Goodwill and Other Intangible Assets* and Section 3450, *Research and Development Costs*. The standard provides guidance on the recognition of intangible assets in accordance with the definition of an asset and the criteria for asset recognition as well as clarifying the application of the concept of matching revenues and expenses, whether these assets are separately acquired or internally developed. The adoption of this new section did not have a significant impact on the Company’s consolidated financial statements.

3. Future accounting changes:

a) International Financial Reporting Standards (“IFRS”)

The Accounting Standards Board of Canada (“AcSB”) plans to converge Canadian GAAP for publicly accountable enterprises with International Financial Reporting Standards (“IFRS”) over a transition period that will end January 1, 2011 with the adoption of IFRS. The AcSB announced on February 13, 2008 that IFRS will be required in 2011 for publicly accountable profits oriented enterprises. The changeover date is for interim and annual financial statements relating to fiscal years beginning on or after January 1, 2011. The Company will present its first set of IFRS compliant financial statements for the year ending December 31, 2011. IFRS uses a conceptual framework similar to Canadian GAAP, but there are significant differences in recognition, measurement and disclosure requirements. The Company is now studying and measuring the lead time for adopting IFRSs and the impact on its procedures, controls and financial statements.

3. Future accounting changes (continued):

b) Business Combinations

Section 1582, *Business Combinations*, replaces Section 1581, *Business Combinations*. The Section establishes standards for the accounting of a business combination. It provides the Canadian equivalent to the IFRS standard, IFRS 3 (Revised), *Business Combinations*. The Section applies prospectively to business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after January 1, 2011.

c) Consolidated Financial Statements

Section 1601, *Consolidated Financial Statements*, and Section 1602, *Non-Controlling Interests*, replace Section 1600, *Consolidated Financial Statements*. Section 1601 establishes standards for the preparation of consolidated financial statements. Section 1602 establishes standards for accounting for a non-controlling interest in a subsidiary in consolidated financial statements subsequent to a business combination. It is equivalent to the corresponding provisions of IFRS standard, IAS 27 (Revised), *Consolidated and Separate Financial Statements*. The Sections apply to interim and annual consolidated financial statements relating to fiscal years beginning on or after January 1, 2011. Earlier adoption is permitted as of the beginning of a fiscal year. The Company is currently evaluating the impact of the adoption of these new Sections on the consolidated financial statements.

Capital disclosure:

The Company's objective in managing capital is to ensure sufficient liquidity to pursue its organic growth strategy and undertake selective acquisitions. The Company manages its capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of the underlying assets. In order to maintain or adjust the capital structure, the Company may issue new shares and acquire or sell mining properties to improve its financial performance and flexibility.

The Company's capital is composed of shareholders' equity. The Company's primary uses of capital are to finance exploration expenditures and acquisitions of mining properties. To effectively manage the Company's capital requirements, the Company has in place a rigorous planning and budgeting process to help determine the funds required to ensure the Company has appropriate liquidity to meet its operating and growth objectives.

The Company expects its ability to obtain additional financing will support further exploration and development of its mineral properties.

b) Common share purchase options:

The Company has a share option plan. Under the stock option plan, the Company's Board of Directors may grant options to acquire common shares to directors, officers, employees and service providers. The maximum number of common shares that can be issued upon the exercise of options granted under the 2006 Plan, together with any common shares issued or reserved for issuance under any other share compensation arrangement which is then in place, is equal to 10% of the number of common shares issued and outstanding from time-to-time. The exercise price of options granted under the 2006 Plan is set at the time of the grant of the options, but cannot be less than the closing price of the common shares on the TSX Venture Exchange on the trading day immediately preceding the day on which and option is granted. The maximum period during which options may be exercised is five years from the date on which they are granted. Until May 22, 2008, the stock options granted to employees and directors were acquired over an eighteen month period at the rate of a third of the stock options granted every six months and were exercisable as from the first six months. The stock option plan was amended in May 23, 2008 and the stock options granted to employees and directors are exercisable at any time as from the date of the grant.

Stock options granted to consultants vest over a period of eighteen months, in connection with the third option every 6 months. They also become exercisable in the first six months.

The status of the Company's fixed-price share option plan as of March 31, 2009 and December 31, 2008, and changes during the period then ended are summarized as follows:

	March 31		December 31

11. Commitments (Continued):

b) James Bay Wemindji property:

Under a joint venture agreement between the Company (“Threegold”), Dianor Resources Inc. (“Dianor”), Metalex Ventures Limited (“Metalex”) and Wemindji Exploration Inc. (“Wemex”) dated April 17, 2008; Wemex has ceased to have an interest in the non-diamond part and Dianor has transferred all of its right, title and interest in the non-diamond part to Threegold. Threegold agrees with Metalex and Wemex that Threegold assumes and will perform all the obligations of Dianor under the agreement insofar as they apply to the non-diamond part, which is the reimbursement of certain costs of deferred exploration expenses relating to certain claims already staked. In the event of the discovery of non-diamond part on the Wemindji Property, each party to the joint venture agreement, Metalex and Threegold, will have the right to a 50% interest in all claims staked and/or acquired on the property. Dianor agrees that such transfer shall not relieve Dianor of liability in the event of the non-performance of the said obligations assumed by Threegold.

c) Bonus, royalty and royalty redeemable:

Under agreements for the acquisition of various mining properties, the Company is liable to pay bonuses and / or royalties if it reaches the stage of pre-production or production.

13. Financial Instruments:

Financial instrument fair values

The carrying amounts of financial instruments are presented in the balance sheet at fair value or amortized cost according to the Company's accounting policies. Short term financial assets and liabilities, which include cash, cash reserved for exploration, short-term investments, accounts receivable and accounts payable and accrued liabilities, approximate fair values due to the immediate or short-term maturities of these financial instruments.

Risk exposure and management

The Company is exposed to a certain amount of risks at different levels. The type of risk and the way the exposition is managed is described here after.

13. Financial Instruments (continued):

a) Market risk

i. Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

The Company invests in guaranteed short-term deposits based on its cash flow needs and with a view to optimizing its income.

ii. Stock price risk

The Company's financing capability is exposed to commercial risks, notably those linked to the stock price on the stock market. The Company does not have hedges covering this risk.

The growth of the Company is highly linked to the stock price. If the stock price would be low for a prolonged period, it might be more difficult to meet financing objectives through private placements or others.

iii. Credit risk

The Company's main assets consist of cash, short-term investments and receivables, which are exposed to credit risk. The book value of the financial assets in the balance sheet represents the maximal credit risk as of the balance sheet date.

The credit risk related to cash and short-term investments is limited since the counterparties are chartered banks with a high credit rating, which is assigned by national rating agencies. As of March 31, 2009, the receivables included related party transactions that will be collected monthly as well as the sales tax. The tax credit relating to resources and the credit on duties refundable for mining exploration expenses will be collected following the filing of the Company's tax returns.

13. Financial Instruments (continued):

iv. Liquidity risk

The liquidity risk is the risk that the Company has difficulties to honour its commitments when they come to maturity. The contractual commitments for liabilities as at March 31, 2009 are as follows:

	Total	Less than 1 year	1-2 years	2-5 years	More than 5 years
	\$	\$	\$	\$	\$
Accounts payable and accrued liability	104,683	104,683	-	-	-
Total	104,683	104,683	-	-	-

As at March 31, 2009 the Company had \$541,427 in cash.

14. Contingency:

Environmental

The Company's operations are subject to governmental laws and regulations regarding environmental protection. Environmental consequences, their impact and their duration are difficult to determine. To the best of its knowledge, management believes that the Company's operations are in compliance with all applicable laws and regulations.

15. Comparative figures

Certain comparative figures have been reclassified to conform to the current year's presentation.
